Community, Facility & Organization

The Upper Peninsula, which is 90 percent forested, retains its aura of accessible wilderness. Vast wildlife and waterfowl refuges, 150 waterfalls, iron and copper mines, the Soo Locks (where ocean-going freighters make the 21-foot leap from Lake Superior to Lake Huron) are within an easy drive of one another.

The State of Michigan offers a near infinite array of moments that live forever in memory. Come find

out what Pure Michigan feels like.

The State of Michigan is a state blessed with the riches of unspoiled nature: the world's longest freshwater coastline, lakes that feel like oceans, shimmering beaches, miles and miles of cherry orchards, glorious sunrises and sunsets, daytime skies of the deepest blue, nighttime skies scattered with stars.

Home to more than 100 public beaches, some of the highest freshwater sand dunes in the world, stunning multi-colored sandstone cliffs, two National Lakeshores and the only national marine sanctuary in the Great Lakes – the Thunder Bay national marine Sanctuary in Lake Huron. More than 100 lighthouses, numerous maritime museums, ten shipwreck-diving preserves and historic military fortifications rim Michigan's Great Lakes shoreline.

Lakes, campgrounds, wildlife refuges and 99 Michigan state parks and recreation areas create a wide variety of recreational pursuits. Rivers for water sports and thousands of miles of hiking, biking, cross-country skiing and snowmobiling trails thread their way among some 100 species of trees.
